SECTION R. DETERMINING QUALIFIED BASIS ON A BUILDING-BY-BUILDING BASIS

Determine qualified basis on a building-by-building basis. List clubhouse(s) or community building(s) last, and distribute the eligible and qualified basis of the clubhouse(s) or community building(s) evenly among all residential buildings only. Market rate units must be evenly distributed among bedroom types and buildings.

NOTE: TOTALS SHOULD MATCH THE CHART IN SECTION J (IF TOTAL IS RED, REVIEW SECTION J FOR DISCREPENCIES)

**New Construction: The PIS date must include mm/dd/yyyy. The PIS date entered above must be no earlier than the date stated on the temporary or permanent Certificate of Occupancy for the building.

**Rehabilitation: Occupied units require a statement from the local government, a CPA, or an architect identifying the mm/dd/yyyy of Placed in Service for each building OR vacant units require the final Certificates of Occupancy issued by the municipality. The PIS date must be no earlier than the date stated on the temporary or permanent Certificate of Occupancy for the building.

*** Projects with market rate units may or may not have the same applicable fraction on each building. The applicable fraction is calculated on a per building basis based on the lower of 1) LIHTC units per building, or 2) LIHTC square footage per building. This may effect the total credit the project is eligible for and will be determined at the time the building is placed in service. Please contact LIHTC staff with questions.

Note: if the date used for PIS is the date of the temporary Certificate of Occupancy, include the temporary Certificate of Occupancy in the appropriate exhibit.

The PIS date shown on this page will be used as the PIS date on the 8609.
